

Job Description

Job Title: Back End .NET Web Developer

Reports to: Group Development Manager

Direct Reports: N/A

Location: Remote

Working Hours: Full time, permanent

Company Background

Hotelplan Group is a large pan-European travel group headquartered in Switzerland, under the ownership of Migros, the leading Swiss co-operative retailer.

In the UK, Hotelplan is a well-established family of specialist tour operators, with a strong tradition of excellence & high standards of quality and service. Each of our companies is incredibly passionate about its holidays, and our staff both in UK and overseas are focused to ensure that we exceed the expectations of our customers, many of whom travel with the company time and again.

Our vision is “Creating amazing holiday experiences to be proud of”.

The Hotelplan UK family of brands includes Explore, Inghams, Esprit, Santa’s Lapland and Flexiski all based in Nelson House, Farnborough, together with the Intravel business based near York.

JOB PURPOSE

As part of the group development team, the developer role will be to develop, maintain, support applications based mainly on .NET stack. The developer will participate in all phases of the development life cycle, analysis, design, coding, testing and documentation.

The key elements of the role are:

- Participate in all phases of the development life cycle, analysis, design, coding, testing and documentation.
- Working to planned time-scales and timely delivery of all tasks and projects.
- Working to high standards and development of coding practices.
- Assist in developing and work with change control and source control processes
- Working with external development partners to deliver new functionality and projects

KNOWLEDGE, SKILLS & EXPERIENCE

Essential:

At least two years commercial experience with:

- C#, ASP.NET, MVC using Visual Studio
- HTML, Basic CSS, Basic JavaScript
- SQL
- Git
- API (JSON/XML) development in .NET
- Unit Testing
- Knowledge of CI/CD
- Knowledge of Agile Development
- Experience within application development or equivalent knowledge ideally in a commercial organisation with strong problem-solving skills.

Desirable:

- Any .NET CMS
- Knowledge of Angular / VueJS
- Umbraco CMS
- TeamCity
- Octopus
- Integration Testing
- Automation (Selenium or similar)
- AWS

KEY COMPETENCIES

- Flexibility & adaptability to learn and apply new processes, demonstrating continuous improvement
- Strong focus on customer service and ensuring the needs of various stakeholders (internal & external) are satisfied at all times
- Driven by deadlines, with the ability to work on own initiative as well as part of a team
- Problem-solving attitude
- Self-motivated and able to react in line with the business focus.
- Lateral thinker who can come up with creative solutions and new ideas.
- Good analytical skills.
- Good Administration skills – including documentation.
- Organised and methodical approach to managing tasks and projects.
- Effective planning ability to ensure conflicting deadlines are met
- Demonstrable web development experience from conception to execution
- Good interpersonal, communication and relationship building skills.
- Excellent command of the English language, both spoken and written.

The above list of job duties is not exclusive or exhaustive, and you will also be expected to undertake such other tasks as may be reasonably be considered within the scope and grading of the role.
