

Job Description

Job Title: Senior .Net Developer

Reports to: Group Development Manager

Direct Reports: N/A

Location: Nelson House Farnborough

Working Hours: Full time, permanent

Company Background

Hotelplan is a large pan-European travel group headquartered in Switzerland, under the ownership of Migros, the leading Swiss co-operative retailer.

In the UK, Hotelplan is a well-established and profitable family of specialist tour operators, with a strong tradition of excellence & high standards of quality and service. Each of our companies is incredibly passionate about its holidays, and our staff both in UK and overseas are focused to ensure that we meet, indeed exceed the expectations of our discerning and loyal customers, many of whom travel with the company time and again.

Our vision is "Creating amazing holiday experiences to be proud of".

The Hotelplan UK family of brands includes Inghams, Ski Total, Esprit, Santa's Lapland and Flexiski all based in Nelson House, Farnborough, together with the Intravel business based near York, and adventure travel business, Explore Worldwide also based in Farnborough.

JOB PURPOSE

As part of the group development team, the developer role will be to develop, maintain, support applications based mainly on .Net stack. The developer will participate in all phases of the development life cycle, analysis, design, coding, testing and documentation.

We have a broad range of sites and applications providing a varied and interesting workload within a product area that you will be able to relate to.

MAIN RESPONSIBILITIES AND KEY TASKS

- Participate in all phases of the development life cycle, analysis, design, coding, testing and documentation.
- Analyzing system requirements and delegating development tasks.
- Reviewing and debugging .NET applications.
- Working to planned time-scales and timely delivery of all tasks and projects.
- Working to high standards and development of coding practices.

- Developing and work with change control and source control processes
- Working with external development partners to deliver new functionality and projects
- Providing support for junior developers.

KNOWLEDGE, SKILLS & EXPERIENCE

Required:

- 4 or more years application development experience ideally in a commercial organisation with strong problem-solving skills.
- Experience of Web and API development
- Excellent development skills and experience including .Net, ASP.net, C#, Razor, MVC, HTML, HTML5, CSS, XML, JavaScript, JQuery
- Development experience using Visual Studio IDE
- Excellent communication, team-working and organisational skills.
- Ability to work to tight deadlines
- Demonstrable web development experience from conception to execution
- Good interpersonal, communication and relationship building skills.
- Excellent command of the English language, both spoken and written.

Desirable:

- Knowledge of the following platforms are a plus:
 - CMS – In particular Umbraco and Kentico
 - Source Code Management (Version Control System) tools like Git, SourceTree, GitHub
 - AWS
 - Azure cloud services
- Knowledge of UX & customer journeys
- Angular / VueJS

KEY COMPETENCIES

- Flexibility & adaptability to learn and apply new processes, demonstrating continuous improvement
- Problem-solving attitude
- Strong interpersonal skills
- Pro-active and “can do” attitude

The above list of job duties is not exclusive or exhaustive, and you will also be expected to undertake such other tasks as may be reasonably be considered within the scope and grading of the role.
